INDEX TO VOLUME XXXIII

Page numbers preceded by "(P)" refer to the summaries of symposia and papers at the Meetings of the Thoracic Society or other bodies. "(E)" refers to editorials.

A

Abano, Peter of, 444
Abdominal left ventricular assist device, intracorporeal, and intraaortic balloon pumping, comparisons of haemodynamic effectiveness (P), 135
ABE, S. *See* OHSAKI, Y, ABE, S, *et al*
Acromegaly, mechanical pulmonary function in (P), 670
  upper airway function in (P), 669
Actinomycosis, thoracic, presenting with peripheral skin lesions, 818
Adenoma, cystic, adenoid, of left main bronchus and trachea, surgical treatment of (P), 532
ADI, F C. *See* NWAFO, D C, and ADI, F C
Adolescent boys, lung function in (P), 541
Adolescents, rheumatic aortic incompetence in, valve replacement for, 608
Aerosol gentamicin, ventilatory effects of, 54
Aerosols, radioactive, in lung imaging (P), 666
Age changes in physical properties of pulmonary vessels, structural basis for, 335
AGNEW, J E. *See* GREENING, A P, FAZIO, F, *et al*
Airflow in unilateral vocal cord paralysis before and after Teflon injection, 57
  obstruction, clinical assessment by breath sounds, 345
Airway, asthmatic, response to single deep inhalation (P), 676
  disease, obstructive, chronic, potassium studies in, 734
  function, upper, in acromegaly (P), 669
  narrowing in asthma, assessment from tidal and maximum flow-volume curves (P), 678
  obstruction, bronchial responsiveness to inhaled histamine and isoprenaline in, 211
  obstruction, chronic, responses to oral and inhaled steroids in, 214
  obstruction, chronic, severe, adjunct yoga treatment in, 514
  obstruction in bronchiectasis, reversibility of, 635
  obstruction in case of disseminated lupus erythematosus, 814
  resistance defined over different ranges of airflows, variation in, 401
ALBERTS, C, and BECKER, A E: Infected intralobar sequestrated lung as a cause of bacterial endocarditis, 524
Alkaline phosphatase production by giant-cell carcinoma of bronchus, 261
AL-KHADER, A A, and COLE, R B: Effect of aminophylline on FEV_1 in patients with nocturnal asthma (P), 536
ALLEN, P, and MIYAGISIMA, R T: Experimental and clinical experience with hypothermic cardiac arrest (P), 129
Allergic alveolitis, extrinsic, mechanical properties of lung in, 315
Allografts, valve, storage in glycerol with subsequent antibiotic sterilisation, 638
ALLWORK, S P, and ANDERSON, R H: Membranous part of ventricular septum in man, with particular reference to membranous defects of ventricular septum (P), 128
ALTINÖRS, M. *See* BARIS, Y I, SAHIN, A A, *et al*
Alveolar lipoproteinosis, case of (P), 542
Alveolitis, allergic, extrinsic, mechanical properties of lung in, 315
  fibrosing, cryptogenic, antinuclear and DNA antibodies in, significance of (P), 669
  fibrosing, cryptogenic (desquamative type), "blue bodies" in case of, ultrastructural study of, 806
  fibrosing, persistent hyponatraemia as complication of, 820
Alveolus, pulmonary, normal and damaged, electron microscopy of (P), 530
Aminophylline, effect on FEV_1 in nocturnal asthma (P), 536
Anaesthesia for thymectomy (P), 673
ANAND, B. *See* HENDRICK, D J, FAUX, J A, *et al*
Anatolia, pleural mesothelioma and chronic fibrosing pleurisy outbreak in village of Karain/Ürgüp in, 181
Anatomical illustration in Middle Ages, 297
ANDERSON, R H: Coronary artery patterns in complete transposition (*Letter*), 825
—. *See also* ALLWORK, S P, and ANDERSON, R H
Aneurysm, arteriovenous, intercostal, large, surgical correction of, 406
  of internal mammary artery, 526
  of main stem of left coronary artery associated with aortic insufficiency and aneurysm of ascending aorta, surgical repair of, 649
Aneurysms, aortic, dissecting (E), 273
  pulmonary and systemic, in case of widespread arteritis, 493
Angiotensin, serum, enzyme converting, in sarcoidosis and other granulomatous disorders (P), 534
Antiallergic agents. *See* Sodium nivimedone
Antibiotic prophylaxis, role in pulmonary surgery, and incidence of postoperative infection (P), 130
  sterilisation of heart valve allografts after storage in glycerol, 638
Antibodies, antinuclear and DNA, in cryptogenic fibrosing alveolitis, significance of (P), 669
Antigen bronchial challenge, effect of H_1- and H_2-receptor antagonists (P), 534
Antigens, avian, hypersensitivity in pigeon fanciers to, environmental and constitutional factors in (P), 674
Antihistamines. *See* Clemastine
Antinuclear and DNA antibodies in cryptogenic fibrosing alveolitis, significance of (P), 669

Anti-reflux mechanism after cardiomyotomy, 569
Aorta, ascending, aneurysm of, and aortic insufficiency associated with aneurysm of main stem of left coronary artery, surgical repair of, 649
Aortic and mitral valve replacement, porcine glutaraldehyde-preserved valves for (P), 532
aneurysms, dissecting (E), 273
arch, tracheal compression of, after right pneumonectomy in infancy (P), 129
valve endocarditis, destructive, from *Brucella abortus*, survival with emergency aortic valve replacement in, 616
valve replacement, fascia lata and homograft, isolated, comparative analysis of (P), 133
valve replacement for rheumatic aortic incompetence in adolescents, 608
valve replacement in rheumatoid aortic incompetence, 612
Aortocoronary bypass, multistage treadmill evaluation after (P), 134
bypass surgery, expanded polytetrafluorethylene as substitute for saphenous vein in, results of pilot study (P), 135
Aortopulmonary window associated with anomalous origin of right pulmonary artery from ascending aorta, 265
APARISI, R. *See* OTERO COTO, E, CAFFARENA RAGGIO, J M, *et al*

ARNAUD, A, POMMIER DE SANTI, P, GARBE, L, PAYAN, H, and CHARPIN, J: Polyvinyl chloride pneumoconiosis, 19
Art and anatomy, 448
Arterial oxygen tension and histamine inhalation in asthma (P), 535
Arteries, great, transposition of, anatomy and methods for transfer of coronary arteries in anatomical correction of, 418; 825 (*Letters*)
great, transposition of, with total anomalous pulmonary venous drainage of supracardiac type (P), 129
Arteriovenous aneurysm, intercostal, large, surgical correction of, 406
Arteritis, widespread, pulmonary and systemic aneurysms in case of, 493
Arthritis, rheumatoid, with aortic incompetence, valve replacement in, 612
Arylsulphatase, immunoglobulins, and complement in sputum from chronic bronchitis and other pulmonary diseases (P), 542
Asbestos workers, pleural disease in (P), 669
ASHTON, I. *See* COTES, J E, ASHTON, I, *et al*
ASHUTOSH, K, and KEIGHLEY, J F: Passive expiration as a test of lung function, 740
Aspergillus fumigatus invasion of bronchial carcinoma, 660
Aspirin and other cyclo-oxygenase inhibitors for relief of asthma, 664
Asthma, acute changes in lung volumes and mechanics in, 394
acute, severe, recognition and indications for ventilation (P), 675
acute, severe, recovery pattern in (P), 675
airway narrowing in, assessment from tidal and maximum flow-volume curves (P), 678
airway response to single deep inhalation in (P), 676
and chronic bronchitis, distinction between, clinicopathological study of (P), 675
and rhinitis, bronchial reactivity and atopic status in, comparative study of (P), 533
arterial oxygen tension and histamine inhalation in (P), 535
bronchial, IgE-mediated hypersensitivity to Chironomidae (*Cladotanytarsus lewisi*) as cause of, in Sudan (P), 538
care in, contrasts in (E), 1; (*Letter*), 544
hypothalamopituitary-adrenal function after cessation or reduction of oral steroids in (P), 537
induced by exercise, plasma cyclic nucleotides in (P), 668
induced by exercise, sodium cromoglycate and ipratropium bromide in, 694
nocturnal, FEV_1 in, effect of aminophylline (P), 536
relief by aspirin and other cyclo-oxygenase inhibitors, 664
severe attacks of, treatment in intensive care units, 12 years' experience (P), 533
unilateral pulmonary collapse in, 207
Atrioventricular canal, type C, associated with tetralogy of Fallot, correction of, 646
valve, left, atresia of, and normally related great arteries with single primitive ventricle, 619
Averill A Liebow Pulmonary Pathology Collection, 543
Avian antigens, hypersensitivity in pigeon fanciers to, environmental and constitutional factors in (P), 674
